

2020 New Products

DB100

Aquavision are proud to launch our first 100” television that can be both free-standing and mounted. When placed on the floor stand, the Aquavision sits slightly tilted in order to provide the optimal viewing angle. A unique combination of aluminium and glass, the epitome of entertainment luxury.

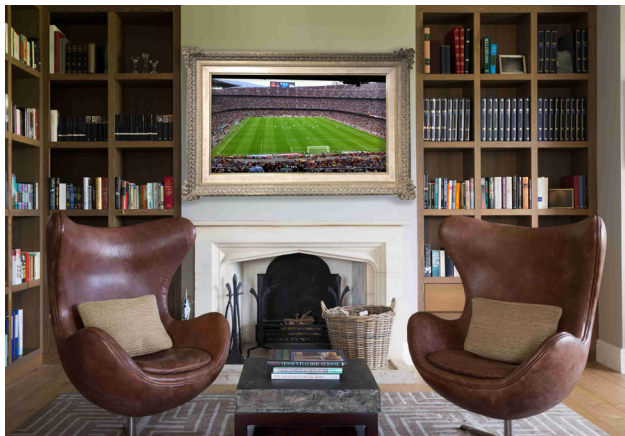

- 4K Resolution 100” Smart TV
- Variety of frame finishes including 24ct Gold
- Meticulously hand built in our UK factory

28” and 32” 4K Screens

Aquavision have now extended their 4K Smart TV range to include 2 more smaller sizes, 28” and 32”. These televisions feature the latest Android 6 Smart TV software and allow 4K resolution to be available anywhere in the home.

- 4K Screens are 28”, 32”, 43”, 55”, 65”, 85” and 100”
- IP, IR and RS232 control as standard
- Compatible with all major control systems

Custom Picture Frames

Aquavision are excited to offer its new range of Custom Picture Frames, designed to work with standard Frameless Aquavision products exclusively. The interior edges of the frame line up perfectly with the viewing window of the screen, ensuring a perfect mirror when switched off and the perfect image when switched on.

- Available for sizes 43” to 100” Frameless Models
- 5 Frame Styles
- Variety of colour options
