Exporting the Hotel Data Base

To export the Hotel Database, make sure a USB stick is inserted in the back of the television and in Hotel Mode, press the DOWN arrow 'DataBase Export' and press ENTER.

Choose the information you want to Export and then press the DOWN arrow until you get to 'Export data->' and then press ENTER
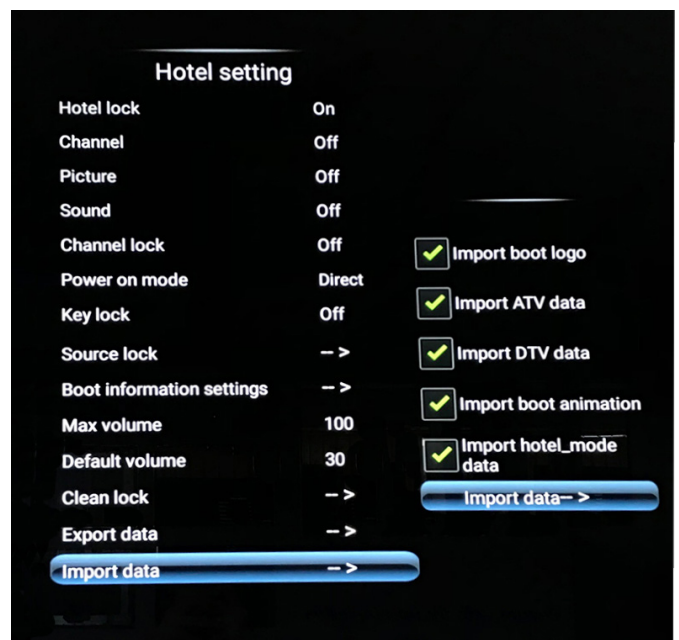

Eject the USB device from the television and insert it into a computer.

Importing the Hotel Data Base

To import the Hotel Database, make sure a USB stick is inserted in the back of the television and in Hotel Mode, press the DOWN arrow 'DataBase Import' and press ENTER.

You will then be able to select the items you want to import. Then press the DOWN arrow until you get to 'Import data->'. The TV will then restart.
