

Aquavision Relay Interface Module AVF-5RLYF & AVF-5RLYF4P

The Aquavision Relay Interface Module AVF-5RLYF provides two multi-purpose, potential free, relay contacts, and the AVF-5RLYF4P provides four multi-purpose, potential free, relay contacts, which become active when your Aquavision TV is switched on.

A Relay Interface Module can be fitted to any Genesis, Nexus, Pinnacle or Elite range television and is compatible with all styles/colours/sizes.

The unit simply connects to the auxiliary connector on the television. If the Remote Switch Panel is also required, then this connects in series with the Relay Interface Module.

Includes the following applications:

- Switching external speaker source from an Audio device to your Aquavision when it is switched on.
- Status signal to external audio systems.
- Status signal for control systems.
- External control LED mirror lights.
- External control mirror demisting pads.
- Maximum power on each terminal is

DC: 28V, 2A, 60W, AC 125V, 0.5A, 60 W

AVF-5RLYF connector details

AVF-5RLYF4P is simply a double version of AVF-5RLYF
