

SKY Kit Installation Guide

Aquavision SKY Kit allows you to control your SKY satellite channels on you Aquavision Television*. It is compatible with all current SKY Boxes (exc SKY Q).

Parts supplied

SKY Kit

Installation

1. Connect one end of the connector cable to the Aerial input of your TV.

2. Remove the protective sticker from the PCB

3. Plug the small black plug attached to the SKY Kit into the top socket on the circuitboard at the bottom of the TV.

4. Plug your TV aerial feed into the other end of the SKY Kit.

5. The SKY signal will appear on the Analogue TV channels after you have tuned it in. Please refer to you TV instruction guide for details on how to carry this out. Please follow your SKY user guide to ensure correct set up of your SKY box.

This equipment is not compatible with Virgin or BT Vision

For further details on any other products in the Aquavision range, please contact your supplier.
