Hotel Setting

5. Export Hotel DB

subsequent televisions as follows]

4.

Choose Data Base Export item using Right soft-key, Then the "OK" Item value will display. It will show export OK). (The DB have channel data, user setting data of main menu, hotel setting data)

[On Nexus2, Genesis2, Genesis ATSC, Pinnacle and Pinnacle ATSC models, you can also export the tuning database from the first television and upload it to all

6. Check the DB

Push the USB device into your PC and you will see a folder named "CV_512" Under this folder you will see a file "FlashData_S2T502_1.bin". It means that the DB is exported OK now.

7. Enter Import Hotel DB Menu

Push the USB device (With the CV_512 folder) into your main board. Do the step 1,step 2 and 3 ,4into the hotel menu.Choose the Database import item using Right soft-key. Then the TV will show the DataBase Import menu.

7. Import Hotel DB

As you can see, Choose the DB which you want to import using Right soft-key. When it's OK the TV will restart.
