Aquavision launch 100" Outdoor Television

Aquavision the originators of in-wall and waterproof televisions, have released a 100" outdoor television.

At 100", this television is set to be a game changer in the outdoor television market, thanks to Aquavision's compatibility with world's leading integration systems, including Control4, Crestron, AMX, Savant and RTI to name but a few.

The television is IP66 rated and provides protection against water, dust, sand, moisture and insects, and can withstand temperatures of -40°C to 110°C

Based on the Elite 4K platform, and packed with features including Aquavision's signature 178° viewing angles, Full IP Control, Discreet IR, DVB-TS/S2 receivers, 2x HDMI Inputs and multiple USB slots, the Horizon Outdoor TV is fully equipped to take on any integration challenge. The 100" television will be the first outdoor television to be available in a flush, in-wall housing, as demonstrated on stand 5-V120. Other sizes in the Horizon range will soon be available in this new flush mount format.

NEWS FROM

All high- and ultra high-brightness models come compete with Aquavision's CTM (Comprehensive Thermal Management), constantly monitoring humidity and temperature, and adjusts where necessary. • Aquavision's ADST (Advanced Daylight Sensing Technology) constantly monitors and adjusts screen brightness to ambient light level to enhance your viewing experience and prolong the life of your Aquavision.

Featuring 6 sizes [32", 43", 55", 65" 85" and now 100"] and 6 individual brightness levels (450 cd/m², 500 cd/m², 700 cd/m², 1000 cd/m², 1500 cd/m² or 2000 cd/m²), all including a high quality, high brightness, anti-reflective LED Screen, the Horizon range is one of the most versatile outdoor televisions on the market. Thanks to the new option of both in- and on-wall models, Horizon takes this new found versatility to a new level.
