

# LED Lighting Strips for Bespoke Mirrors

LED lighting is now available as an additional option on all Bespoke Mirror products

Rather than having to choose between cool white, natural white, or warm white, or indeed any favorite colour temperature, Aquavision have developed an LED lighting system that incorporates all colours and allows you to choose or even mix, which colour you want at the touch of a button. This is also IP65 rated so is perfect for bathrooms.

Specification:

Voltage	12Vdc
Power consumption per metre	9.6W/m
Current per metre	800mA
Light intensity per LED (milli-candelas)	6000mcd
Luminous flux (Lumens per metre)	600lm/m
LEDs per metre	60
LED type	SMD5050 dual colour
Beam angle	140°
LED colour Warm white	3000K
LED colour cool white	6000K

Supplied with each mirror is a simple IP63 rated remote control. This gives you instant access to power, brightness and colour temperature. Power is via a separate 12V DC power supply, supplied with each order [1xPSU per 5m length].
