

# Fixing Styles

Aquavision has a variety of different fixing styles each with different design features: Frameless, Classic and Silhouette.

The Frameless

The Aquavision frameless model provides a simple, elegant glass design. An unobtrusive glass screen that will merge into any room décor and wall finish. This design utilises a slimline, galvanised steel metal box that fits flush into the wall with a polished edge glass piece fitting tight onto the wall's surface, protruding by just 6mm.

Mounting Style: In-wall  
Extrudes from the wall: 6mm

The Classic

The Classic is the original iconic Aquavision design. A high quality polished stainless-steel bezel makes for a strikingly elegant finish. This option provides a fully flush in-wall appearance, protruding from the wall by just 1.2mm. An optional slimline galvanised back box for damp or dusty installations is available where required.

Mounting Style: In-wall  
Extrudes from the wall: 1.2mm

The Silhouette

Sleek, satin black aluminum extrusion disappears behind the front face of the Aquavision to give the look of a "floating" television. Ideal for retro-fit installations or for use where "flush mount" is not an option. Available with any of the standard 4 glass finishes as shown below. Also available with VESA mount fixings. Waterproof to IP66.

Mounting Style: On-wall  
Extrudes from the wall: 50-75mm\*

## Television size options based on Fixing Style:

	16"	22"	27"	28"	32"	43"	55"	65"	85"	100"
Frameless										
Classic							-	-	-	-
Silhouette	-							-	-	-

\*Depending on screen size
